🚀 Google Gemini Prompts for Teachers

Your Complete Guide to AI-Powered Teaching Excellence

A ChromeGeek.com Resource

Google Gemini is transforming education by helping teachers streamline lesson planning, grading, communication, and professional development. This comprehensive guide provides ready-to-use prompts that will save you time while maintaining your personal teaching style.

📚 Lesson Planning & Curriculum Design

Task	Gemini Prompt
Create a full lesson plan	"Create a 50-minute lesson plan on photosynthesis for 8th grade biology."
Differentiate instruction	"Adjust this lesson plan to include accommodations for students with dyslexia."
Scaffold a concept	"Break down the concept of renewable energy into three levels: beginner, intermediate, and advanced."
Design project-based activities	"Create a 2-week project-based unit on environmental sustainability for high school students."
Tie content to standards	"Align this 5th grade math lesson on fractions with Common Core Standards."
Create unit overview	"Design a 4-week unit plan on World War II for 10th grade history, including essential questions and assessments."
Plan field trip activities	"Create pre-visit, during-visit, and post-visit activities for a science museum field trip."

⚡ Quick Creation (Quizzes, Slides, Rubrics)

Task	Gemini Prompt
Create a quiz	"Generate a 10-question multiple choice quiz on the water cycle with answer key."
Draft a rubric	"Write a 4-point rubric for a persuasive writing assignment for 6th grade."
Generate slide content	"Create slide outlines for a 30-minute history lesson on the Cold War."
Build a handout	"Make a worksheet with 5 practice problems for solving inequalities."
Design bell ringers	"Give me 5 bell ringer questions for a high school English class reading 'Of Mice and Men.'"
Create vocabulary activities	"Design 3 engaging vocabulary activities for these 15 chemistry terms."
Make anchor charts	"Create content for an anchor chart explaining the parts of speech for 3rd graders."

📧 Parent Communication

Task	Gemini Prompt
Write a progress update	"Write a friendly email to a parent updating them on their child's improvement in math."
Send behavior note	"Draft a calm, supportive message addressing a classroom disruption and next steps."
Create a newsletter	"Summarize this month's curriculum and upcoming events for a class newsletter."
Request parent volunteers	"Write a message asking for parent volunteers for field day."
Send form letter in bulk	"Create a template for weekly updates I can reuse for each student."
Conference preparation	"Help me prepare talking points for a parent-teacher conference about academic concerns."
Absence follow-up	"Write a supportive email to parents about extended student absence and catch-up plan."

📊 Assessment & Feedback

Task	Gemini Prompt
Give feedback	"Give me kind but clear feedback on a 5th grade student's persuasive paragraph."
Generate answer examples	"Show 3 example responses at different levels for this math problem."
Design exit tickets	"Write 3 exit ticket questions to assess understanding of geometric angles."
Reteach plan	"Give me a 10-minute mini-lesson to reteach multiplying fractions."
Suggest groupings	"Suggest small groups based on performance levels described in this summary."
Create self-assessments	"Design a student self-assessment checklist for a research project."
Formative assessment ideas	"Give me 5 quick formative assessment strategies for checking comprehension during reading."

🎯 Classroom Management

Task	Gemini Prompt
Create classroom rules	"Help me create 5 positive classroom rules for 2nd grade students."
Design reward system	"Create a classroom reward system that promotes intrinsic motivation for middle school."
Icebreaker activities	"Give me 3 icebreaker activities for the first week of high school English class."
Transition activities	"Suggest 5 quick transition activities to use between lessons for 4th grade."
Brain breaks	"Create 10 energizing brain break activities that take 2-3 minutes each."
Conflict resolution	"Help me create a step-by-step conflict resolution process for elementary students."

🎓 Professional Development

Task	Gemini Prompt
Summarize research	"Summarize this article on inquiry-based learning in 3 bullet points."
Create PD slides	"Draft an outline for a 30-minute presentation on integrating AI in the classroom."
Draft recommendation letter	"Write a professional and sincere letter of recommendation for a student applying to a summer STEM program."
Outline reflection log	"Create a weekly self-reflection template for teachers to log wins and challenges."
Create agenda	"Make a PD meeting agenda with time estimates and focus areas for curriculum review."
Summarize a PD session	"Summarize this 2-hour workshop into 5 action steps teachers can apply next week."
Goal setting	"Help me create SMART goals for improving student engagement in my classroom this year."

🎨 Creative & Engaging Activities

Task	Gemini Prompt
Story starters	"Create 5 creative writing prompts for 7th grade students about time travel."
Science experiments	"Suggest 3 simple chemistry experiments using household items for 6th grade."
Math games	"Create a fun math game to practice multiplication tables for 3rd grade."
Discussion questions	"Generate thought-provoking discussion questions about environmental responsibility for high school."
Art integration	"How can I integrate art into my history lesson about ancient civilizations?"
Technology integration	"Suggest ways to use tablets/smartphones educationally in my English class."

📱 Mobile Teaching Tips

💡 **Gmail app:** Use Gemini to suggest replies or reword parent emails while on the move.

💡 **Google Docs mobile:** Launch Gemini to draft quick rubrics, exit tickets, or assignment instructions.

💡 **Gemini app (Android):** Ask Gemini to brainstorm classroom activities or do morning prep while commuting.

💡 **Voice input:** Use voice prompts like "Write an end-of-week class newsletter" for fast content creation.

💡 **Quick planning: Generate lesson ideas during lunch breaks or between classes.**

💡 **Emergency prep: Create substitute teacher plans on-the-go when you're feeling unwell.**

💡 **Parent communication: Draft sensitive emails with AI assistance to ensure professional tone.**

💡 Pro Tips for Better Prompts

💡 **Be specific: Include grade level, subject, and time constraints in your prompts.**

💡 **Add context: Mention your students' needs, learning styles, or classroom setup.**

💡 **Ask for alternatives: Request multiple versions or approaches to find what works best.**

💡 **Iterate and refine: Start with a basic prompt, then ask Gemini to modify or improve it.**

💡 **Include standards: Reference specific learning standards or curriculum requirements.**

💡 **Think accessibility: Always ask for accommodations for diverse learners.**

💡 **Save favorites: Keep a collection of your most successful prompts for reuse.**
